

**SIG SAUER P232 NO. 232-380-SSS 380 ACP, \$900**

**GUN TESTS GRADE: B**

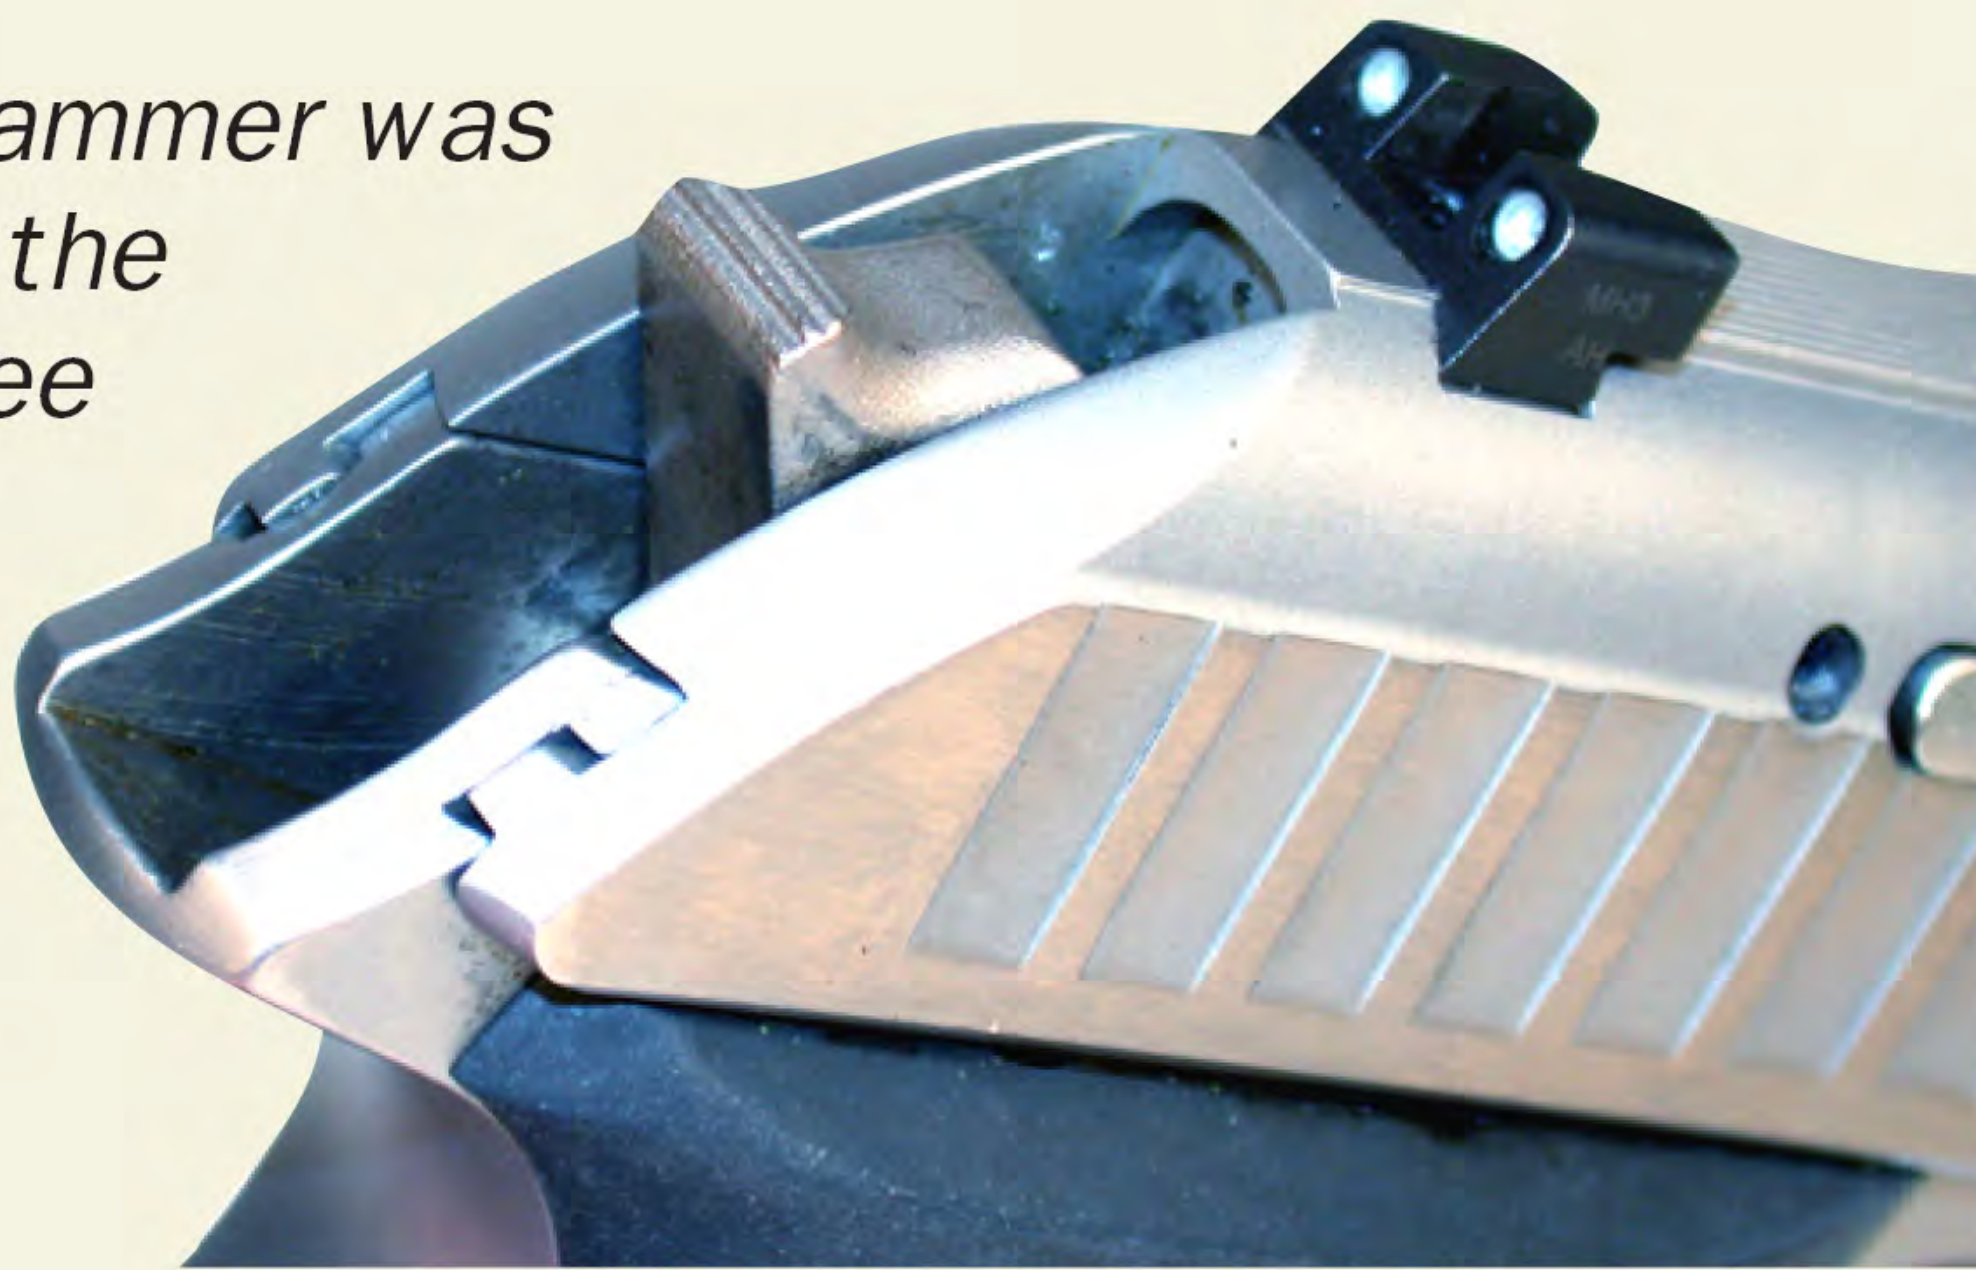

The strengths of this design are its narrow profile and natural index. But we'd choose the least expensive model P232 that was lighter, too.

**SPECIFICATIONS**

OVERALL LENGTH .....	6.6 IN.
BARREL LENGTH.....	3.6 IN.
SIGHT RADIUS.....	4.6 IN.
OVERALL HEIGHT.....	4.7 IN.
FRONT STRAP HEIGHT .....	2.3 IN.
BACK STRAP HEIGHT.....	2.6 IN.
WEIGHT UNLOADED/LOADED .....	22.1/26.7 OZ.

TRIGGER SPAN SINGLE ACTION .....	2.5 IN.
WARRANTY .....	NONE WRITTEN
TELEPHONE .....	(603) 772-2302
WEBSITE OR EMAIL .....	WWW.SIGSAUER.COM

**Right:** The hammer was shrouded by the slide. All three models of the P232 are shipped with night sights.

**Right:** The takedown latch was countersunk (bottom arrow), helping to keep the gun slim and snag-free. The front sight was low mounted, but clearly visible. Note the wavy lines on the top strap. They helped reduce glare.

**Left:** The magazine catch was located at the bottom of the grip. Slower to manipulate than a button, this design helped keep the gun narrow and ensure retention when the gun is pocketed, for example. The Hogue grip helped us shoot, but did add bulk.
