TRIGGER SPAN SINGLE ACTION .....	2.4 IN.
WARRANTY .....	NONE WRITTEN
TELEPHONE .....	(603) 772-2302
WEBSITE OR EMAIL .....	WWW.SIGSAUER.COM

**Left:** Fit and finish of the P238 was excellent. The grip panels looked like aluminum but were actually polymer.

**Right:** The P238 is a deep concealment pistol designed to be carried cocked and locked. A strong detent to hold the safety in check was a necessity.

**Right:** Under the hood was a 2.7-inch barrel with solid link. Most of today's small guns have complicated recoil systems but the full length guide rod and single filament spring worked smoothly without malfunction.
